" Dear Sir,

" Please call and set a your account with

ten days, and thereby save any further trouble."
 "And oblige
 "Yours truly
 "Wm. Johnson
 "Hatter & furrier."

And as I have good reason to believe that more than one of these *forged* letters has been sent over the Post Office to customers by some evil disposed person, with the evident intention of annoying them and hurting my business, any one who receives them will please retain the envelopes and bring them for forgery to me.

BELLEVILLE, THURSDAY, MAY 5.

AN ELEPHANT.—We are informed that, in one of the tableaux at the concert to-night, an elephant will be exhibited. We don't know whether the animal has been procured from Van Amburg's or Harman's, but he is to be exhibited, at any rate, Go and see the elephant.

NO. 3 FIRM COMPANY.—The following are the officers elected at the annual meeting for that purpose, of No. 3 Firm Company, held last night: Captain, James Cummings; 1st Lieutenant, Alex. Harkins; 2nd Lieutenant, Thomas Cox; Secretary, Alex. Marshall; Treasurer, Wm. McLaughlin; Foreman, Brandt, David Bradford; Foreman, Hone, Wm. Maher; Foreman, Section, Thomas Nicholas; Foreman, Brake, John McLaren.

STILL THEY COME.—This morning ten cars of English emigrants booked to various parts of Ontario, passed west by Grand Trunk Railway. Amongst the passengers were several employees of the U. T. R. at Belleville Station. He left a good appointment for the purpose of settling in England, but like many others who have returned to the old country, found that he could make a better home in Canada and was glad to come back again, bringing several with him.

THE BRITISH SETTLEMENT.—Dr. Lynch protests against the exclusion of Port La Prairie and White Mud River from the new Province of Manitoba, in a letter to Sir John A. Macdonald, and says the population of that portion of the territory, which is actually within sixty miles of the capital of said Province, contains 3000 out of the 15,000 or so of souls in the Red River settlements. Mr. Lynch makes his protest "in the name and on behalf of the people of these settlements."

TO NIGHT'S CONCERT.—Our readers will be reminded that the concert of the Protestant Benevolent Society, to which so many were unable to gain admission on Tuesday night, will be repeated tonight, with such attractions in the programme as will impart a spice of novelty to the affair, and make it desirable to bear its repetition by those who were present on Tuesday. Amongst the attractions now offered are a grand new tableau, and a concert solo by Prof. Armstrong, whom all wish to hear. It will be necessary to go early in order to secure places.

THE FUR TRADE.—The magnitude of the fur trade carried on in this vicinity is but little known from the public mind, and the business is conducted. At present Mr. A. Dolan, agent here for the Hudson's Bay Company, is busy collecting furs of various kinds and trapped with a number of 100 miles from Belleville, his place of business being the shop in Dr. Lister's building on the S. W. corner of Front and Bridge streets. Within two days he has secured the skins of 11,000 muskrats, 20 foxes, 20 coon and a number of other furs of different animals. He expects to remain a few days longer in the premises now occupied by him.

A RELIC OF THE PAST.—One of the workmen engaged in digging the foundations for Mr. Thompson's new building, corner of Front and Bridge streets, to-day turned up an article which has occasioned considerable curiosity as to its former use. It consists of a piece of cast iron, about four inches thick, its surface being about 4 by 6 inches. On the face is a representation of a church with two steeples, at the base of which are the letters "P and A" respectively, and at the bottom the French words "La Cathedrale" (the Cathedral), plainly denoting its French origin. Attached to the rear of the foundation is a wrought iron handle, of some eighteen inches in length, with a loop at the end. The presumption is that it has been used as a stamp for some purpose. The curious can see it at Hon. B. Fink's store, Bridge street.

Police Court.

(Before A. ROBERTSON, Esq., Mayor.)

WEDNESDAY, MAY 4.

Drunks and Disorderly.

In the absence of the Magistrate, His Worship the Mayor ascended the tribunal the afternoon and adjourned in the case of James McGarry, who had been kicking up a dust on the streets. The ten days in the house of correction was the result of the effect of making him a little more cautious in future. It is to be hoped.

Special opinion is in a sharp knife. There are foolish people who regard it only with terror, and are not touch or meddle with it; there are more foolish people who, in relation or disfigurement to the case, get out and mangled for their pains; and there are wise people, who grasp it discreetly and boldly, and use it to cut out their own purposes.

The New Province.

Although the details of the North-West Bill are not fully known, we have sufficient in the outlines given in the First Minister's speech to form an opinion of its general bearing. We need scarcely say we are disappointed. All alike have had their fears that the same narrow, sectional, partisan spirit would be manifested in the Bill, as has been exhibited in the whole management of the North-West question. And although we have shared in the general fear that too many concessions would be made to the French Roman Catholic element, we had no conception that the Government would make such a complete surrender to that element as is apparent in the measure introduced by the Government.

The Province of Manitoba contains about 15,000 inhabitants. To govern these people it is proposed to have an Upper as well as a Lower House, the former to consist of seven and the latter of twenty-four members; there are to be two Senators and four members of the House of Commons in all, or about one to every 400 inhabitants, men, women and children. While we would scarcely expect at the outset to confine the representation to population as our own Province, there is certainly no justification for departing from the provisions of the Union Act to the extent that is proposed. The number of members is altogether too large, and the whole legislative machinery is too cumbersome and expensive.

The area of the new Province is too small, and there is evidence of judicial work in forming its boundaries. Within thirty miles of Fort Garry lies Portage La Prairie, the only purely British settlement in the whole Territory. This settlement is left out in the cold, while in another part of the Territory a considerable deflection has been made in the boundary line for the purpose of taking in a French Roman Catholic mission. Why was this done? For what other purpose than to give the French Roman Catholics the ascendancy and complete dominancy over the whole Territory? No excuse was given for this manifest exhibition of partiality, the apparent object being to the loyal people of Red River the evident pandering to Roman Catholic influence, this humiliating concession to the rebel priests and their minions.

There are other features of this Bill equally objectionable. In the absence of the details it is probably scarcely fair to discuss the measure as a whole. There is, however, in the outline abundant evidence to believe that the measure is conceived in the interests of the French Roman Catholics, that it is intended to strengthen their party, and to establish a small Province, where these Rebels may have full swing. But we cannot believe the Government will do this. We believe the representatives from Ontario will demand material alterations in the Bill, and in the face of that demand the Government will not dare force the passage of the measure.

Since the foregoing was in type, we observe by yesterday's proceedings in Parliament that one of the chief objectionable features to the Bill has been removed. Portage La Prairie, with its 3,000 British settlers, has been incorporated into the new Province. Let us hope that the other objectionable features will be removed before the final passage of the measure.

Officially Received.

At length we have the distinct announcement of the Minister of Justice that Richard Scott was officially received and recognized as the delegate of the people of the North-West. Notwithstanding the almost universal protest from Ontario, notwithstanding the remonstrances of Dr. Lynch and other legal refugees from Red River, who again and again solemnly asserted that they were the delegates of the people, and not of the people; notwithstanding the knowledge that Richard was one of the chief instigators, aids and supporters of the rebellion; that A. H. Scott was known to be a Yankee Penman, and that both were as morally guilty of the murder of Scott as Richard himself, these men are received by our Government, treated with by our Government, feasted by our Government, and if we mistake not, the demands they make, conceded by our Government.

The passion of the people has cooled somewhat, but it is a mistake to suppose the people are not as determined to have justice done now as they were when the news first came of the cold-blooded murder of the patriotic Scot. The facts are the same as when the tide of indignation at the fearful murder rolled over the whole of Ontario. The crime of Richard and those who acted with him is none the less, and Ministers misapprehend the feeling of Ontario if they suppose that they will quietly pocket the insult offered them in officially recognizing and treating with these delegates.

As we have before stated, it might have been proper to have received them if the delegates of Scott had not taken place. But that cold-blooded crime put a new phase upon the matter and gave a new character to their standing as delegates. Until that crime was avenged and atoned for, these delegates cannot have been commended to stand aside, and we regret the Government have committed a great wrong in receiving and treating with these men who, are the acknowledged enemies of the murderer (Richard), and as the Hon. J. H. Cameron said, "whose hands are red with the blood of our countryman."

Building Operations for '69-70.

To the former resident of Belleville, who has returned after an absence of a few years, the changes presented in the aspect of the town is a highly improved appearance, but not gratifying in the extreme. Front street of course the first to attract attention, as it is the great thoroughfare, is in its entire length on the east side of the river being built up with magnificent shops, the superior of which are not to be found outside of the great cities.

Most of the old frame buildings have disappeared, principally by the agency of fire, and their sites are now occupied by structures of brick, many of which are of the most beautiful designs, while others present a plain, solid, commercial appearance, perfectly in keeping with the character of the business which is carried on in them. There is certainly no street in any town of the upper Province, outside of Toronto, which can rival it, either in appearance or amount of business done.

While Front street has been thus progressing, other parts of the town have likewise made a rapid advance, which has indeed been necessitated by the rapid increase in the wealth and population of the town. On the hill in east Belleville, buildings have sprung up almost, apparently, by enchantment, and the rear portion of Taylor's which was formerly used as a race course, is now thickly dotted with substantial brick and stone structures, well calculated to stand the severity of the climate in the winter season. Shade trees have been planted in profusion, and their grateful shade will be appreciated during the summer to come.

On Murray's Hill, too, many pleasant residences have been erected, up to and even beyond the limits of the town. We hope to see many of the beautiful sites on that hill taken up and built upon year by year, until it is as fairly crowded with buildings as the eastern hills promise soon to be.

Towards the College, and in Blacker's grove, buildings are constantly being put up, and though the progress in this direction is not so fast as in others, there remain but few lots to be taken up.

Having thus briefly glanced at the general character of the improvements which have been made in the buildings of our progressive town within the last few years, we will now descend to particulars, and give the facts and figures concerning what was done during the latter part of last year, and what is being done during the present season.

On the north-east corner of Front and Bridge streets, a site for many years occupied by a frame building, which from its venerable appearance had become one of the landmarks of the town. Mr. Thompson is now erecting a three-story brick building. In the first story will be two doors, about 10 feet wide each. The second story will be devoted to law offices. Vaults on the ground floor and a second story. The size of the structure will be 24 by 70 feet. Mr. John Poir is the architect, and Mr. Thomas Rutherford has taken the contract for the building work. The probable cost is stated at \$60,000.

The next building is owned and partly occupied by Mr. Walter Fanning, who is intended enlarging and improving it. In our advertising columns will be found a notice calling for tenders for that purpose. Mr. Fanning intends fitting up his building in the most improved manner, and it will, it is expected, be occupied by the Express Company and Montreal Telegraph Company's office.

Adjoining is the lot owned by Mr. D. D. Bogart, on which the Empire Hotel stood several years ago. Since the destruction of that of house, the site has been occupied. Early in the spring tenders were advertised for by Mr. Bogart for the construction of a three-story building of brick and stone, with a height of 80 feet and a depth of about 35 feet. The building is to be divided into three fire-proof compartments, the walls between each being carried up to the roof. The second story will contain suites of offices for the accommodation of which several fire-proof vaults will be erected. It is intended that the eastern end will be occupied by the Post Office.—Mr. John Poir is the architect.

On the southern end of the wood market, Messrs. Davis & McClenahan have erected a carpenter and planing shop, which is supplied with a planing machine, circular saws and other machinery for the prosecution of their trade. Both proprietors are practical workmen, and have several contracts already on hand. Their building is of frame, 80 by 60 feet, two stories in height, with an engine room of 17 by 21 feet in the rear, in which an engine of 15 horse power. The cost of the structure will be about \$600.

Adjoining St. Thomas Church, on Bridge street, Mr. Ackerville is erecting a three-story building, the basement of which will be of stone and the two upper stories of brick. The situation is a pleasant one, as may be judged from the fact that before the present building was erected, the present the house was a handsome one, and will be well adapted for the use of the modern convenience. Mr. Ackerville is his own architect. Mr. Maudsley is the builder. Mr. James Dickson will undertake the carpenter work. The cost will be about \$15,000.

TO BE CONTINUED.

Parliament Yesterday.

After routine business, Mr. Mackenzie moved for a resolution with the Imperial Government on the Northwest.

Sir John A. Macdonald said that nearly all the correspondence had been laid on the table, and that such of the balance as could be procured would be brought forward.

Mr. Cartwright asked what sums were to the credit of the Dominion in the various Banks here and in England on the first of March last.

Sir Francis Hincks gave particulars of the items, whose aggregate amount to \$5,974,490.

Several returns were moved for. It was decided to fix the third reading of the Interest Bill to-day.

The Supplementary Estimates were brought down. Amongst the principal items, are for Militia, for covering an over expenditure for drill instruction in 1868-69, \$50,000; for meeting expenditures of threatened Fenian invasions, \$500,000; Light Horse, \$450,000; Fishery, Marine Police, \$50,000; North-West Territories, for opening communication with, establishing Government in, and providing for the settlement of such Territories, including the expenditure to Red River, re-vote. This vote to cover the amounts expended to the current date, and the unexpended balance on the 30th June to be applicable to the services of 1870-71, \$1,450,000; two Steam Drivages, \$40,000; Secret Service, \$100,000.

The Currency Bill was discharged. The Bank of Upper Canada Bill was read a third time and passed.

The Superannuation Bill was read a second time.

Sir John A. Macdonald moved the second reading of the Manitoba Bill, in order to explain some of the alterations that had been made. The boundary lines which were altered in order to include Portage La Prairie, the people of which he had heard to believe were averse to being governed from Fort Garry, though they had been, he thought, willing to enter the Union. The deviation of boundary would increase the estimated population by about 3,000, so that in calculating the subsidy to be paid that territory, it should be on the basis of 17,000 persons instead of 15,000.

Mr. Mackenzie approved of the changes as far as they went, but he considered the Bill far from satisfactory yet.

After some further remarks from the Hon. Mr. Macdonald, Sir Geo. E. Cartier and Mr. Hilly, the matter dropped.

The House then went into Committee of Supply on the Supplementary Estimates, which were passed down to the minute expenditure. That and the item for Immigration evoked lengthened discussions.

Only a Boy.

Only a boy, with his pale face and
The velvet mystery of his hair;
As timid as a mouse and yet so bold
As a lion in the face of fear;
And as hard to manage as what? Ah! me!
The heart to tell,
Yet he loves his life.

Only a boy, with his fearful face,
Who cannot be driven, but must be led;
Who trembles like a reed in the wind,
And then, when danger is at hand,
And there are others, and he is alone,
Lies more sure than a rock and a stone.

That would cost a store
Five years or more.

Only a boy, with his wild, strange ways,
Who is the terror on the busy day;
With the queer, comical, and the real capital,
Sometimes foolish, sometimes wise,
Once brilliant for the wit of his face,
As a meteor burst from the planet's face.

Only a boy, who will be a man,
If nature gives him the best part of his plan;
If water or fire, or cold or heat,
Can ever lead to the end of his hair,
Our blessing on the boy who is so true,
Our tears, our joy, our love, our care.

Bathing.

A daily bath for the whole body is not too much. Health may not absolutely require this, but there are few persons who would not be benefited by a complete washing of the skin, from head to foot, at least once every day. The feet need washing as much as the head, as perspiration upon them is very abundant. Feet that are washed in water and leather are not excepted from the necessity of cleansing. Digestion is free when water is applied above the organs of digestion, and the washing of the chest helps one to breathe more freely. Bathing cleanses the limbs, and it is a pleasant stimulus to the system, as it is a tonic. It is hardly less necessary, and the recreation which it brings makes it a luxury even in the most impatient season.

Suspecting his Judgment—Brown speaking of Robinson to Jones the other day, said this virtuous man summed up in a single line. "Certainly replied J. Jones, 'if there is a snake at the foot of the bed.'"

At what a rate that girl's tongue is going! said a lady, looking complacently at her daughter, who was discussing some subject of apparent interest with a handsome young clematis. "Yes," replied a satirical neighbor, "her tongue is going at the rate of a steam engine."

The *Examiner* says:—The exchange says: "The effluvia from a root beer and a ginger pop with the cork left out of the bottle were right. He is a teacupful of syllabub, a kitten in a panicle, a sick monkey with a blonde mane. He is a time without any real, a fly downed in a sweet oil, a paper kite in a dead calm. He lives like a nobody—nobody can tell why. He is a harmless as a cat's paw of spice gum, and as useless as a shirt-bust without any buttons. We have a few such creatures in this city."

Washing Sheep.

It is a question upon which all do not agree whether it is best to wash wool or put it into market immediately. We believe in the West and in the Northwest, the prevailing opinion is in favor of washing. The strongest argument in support of this conclusion is the cost of transporting the additional weight to market, for whether the farmer ships his clip to a commission agent or sells it at home, the cost of freight counted against him. He best remedy for this will be found in encouraging the manufacturers to erect their factories in wool-growing localities. Then freight upon both wool and cloth will be saved. Another help to the clothier to wash wool has been found in the arbitrary rule, or practice of the majority of buyers. They will pay more for washed wool, even though it has run long enough after waiting to become nearly as heavy as before. With those who feel it in their interest to wash, the question is how can we do it best, all things considered?—*Waters.*

Where the necessary facilities can be had, we recommend swimming, as saving much labor to both man and sheep, and doing the work quicker and better than any other method. A running stream should be selected and a point found where the bottom and banks are not muddy. Sheep should be put across as many as three times, with an interval of half an hour of standing between washings. If in clean water and deep enough to keep clear, sheep can be washed so much more thoroughly in any of the modes common among wool growers. We have known three men wash thousands of sheep in this manner in a day after getting to the water—and so it will be. Very little preparatory work is necessary, as most of the dirt will be taken off at once without trouble, at almost any point.—*Waters.*

Catarrh, a disease which distresses so many of our people, can be cured by the use of Dr. J. C. Ayer's Catarrh Remedy, which is sold by all druggists.

Consumption, by Dr. J. C. Ayer's Catarrh Remedy, will relieve and cure you. For all diseases of the throat, chest, and lungs, this medicine is the best remedy.

For the cure of Dr. J. C. Ayer's Catarrh Remedy is offered to the sufferer of this distressing disease, with a certificate of recovery, and a reward for their relief. Sold by Druggists.

Times go by turns; and change change by

course.

From foul to fair, from better back to worse.

The sea of fortune doth not ever flow.

She draws her favors from the lowest ebb.

Her floods have equal time to come and go.

No day is so great but it must be as good.

No day is so bad but it may be as good.

Not always full of lead, nor ever spring.

Not endless night, nor yet eternal day.

Scientific and Useful.

INSECT POWDER.—Very weak phosphoric

acid, one ounce of the acid of commerce

dissolve in three gallons of water; a strong

solution for all kinds of insects, and yet

safe for the human family. It is sold in

the city of Montreal.

To Get Rid of Rats.—Remove, as much

as possible, all eatables for three or four

days, and then draw the rats holes with

soft rat. Rats do not bite their tails.

Put it in the hole, and it will be as

there is a strong temptation.

When they have ceased coming, nail up

the holes and you will probably be safe

from their visits for a while. If they gnaw

a new hole, trap it promptly the same way.

CAV. A. YACONIA PATTY.—Take com-

mon clay, the same that our bricks are

made of, put pulverize, run it through a

sieve and mix with linseed oil. You then

have a first-rate fire proof paint, of a deli-

cate color. Put it on as thick as

practicable. If any one has doubts with

regard to the above, just try it on a small

scale; paint a shingle for instance and let

it dry. Recollect it must be mixed thicker

than common paint.

TO GET RID OF RATS.—After being well

cleaned, put the fish with salt, and pin it

in a towel; put it in a pot of boiling water,

Japanese Domestic Life.

M. Humbert, the Swiss Minister at Jedo,

has lately published some amusing details

of the domestic life of the Japanese.

In Japan, marriage is the universal habit.

Almost the only exceptions are to be found

in the case of certain monastic orders, and

among the ladies in attendance upon the

Emperor. Men marry at about twenty and

women at fifteen years of age, but, except in

the Buddhist sects, the act is marked by

no religious ceremony. Among the present

displayed is a lively to be seen a

double-lipped vase. At a given moment

one of the bridesmaids advances, fills it

with wax, and presents it alternately to the

bridegroom and bride until the goblet is

emptied.

Under the symbol the idea is conveyed

that together the husband and wife must

drink the cup of conjugal life to the dregs

—whether it be filled with ambrosia or with

poison. Japanese mothers have greater

thirty over their children than their fathers

and the rights of women are so far recognized

in the country that a woman has wielded

the sceptre of the Mikados. During infancy

and childhood, Japanese playmates are a

short-legged dog, and later familiar cats.

Instruction is never forced upon either children

or parents; it is supposed to recom-

ment itself naturally by its own intrinsic

qualities. Every man and woman through-

out the empire is able to read, write, and

cipher. The thirteenth day after every

evening received his first name; on attaining

his majority he takes a second; a third on

his marriage; a fourth on being invested

with any public function, which changes

upon attaining each higher grade, and so on

to names given to him after his death. The

last is engraved on his tomb, and he is by

it known in all succeeding generations.

Scientific Notes.

Surely, nobody who reads this scrap of

scientific news can doubt that we are living

in an age of very wonderful enlighten-

ment.

"THE DISCOPE," Dr. Millo, a Russian

surgeon, has invented a means of illuminat-

ing the interior of the living human body,

with the aid of a concentrated beam of

electric light. If this be really feasible,

we may hope that the invention may lead

not merely to medical but moral good

area which separates the stars of this group.

Compared with the results obtained by

Bessel some years ago, an almost absolute

coincidence was found; but an illustration

of the triumphs of modern science is shown

in the "eminent German astronomer" to

ascertain was determined by an American

in the course of the observations of a single

FRANCE.
Paris, May 17.—The police continue their search for and arrest of parties implicated in the late conspiracy.
A native of Belgium discovered during the election among the voters at one polling place, was arrested, and has since been sent out of the country.

The Emperor of Austria and the Empress of France will be disappointed of the expected child of the Princess Metekich.
The party of the left centre, to which belong three ministers who have just resigned, is to be immediately reconstructed. The new Cabinet is viewed with considerable astonishment, and is not without dissimulation.

The French government has officially notified Greece that if it violates capture Frenchmen, Greece shall pay the ransom.

SPAIN.
ESPARTEIRO DECLINES THE CROWN—CIVIL MARRIAGES.
Madrid, May 17.—Espartero has written a letter to Marshall Prim declining the candidature for the Crown on account of his great age. The Cortes has passed a bill authorizing civil marriage, by a vote of 143 yeas to 34 nays.

THE LATEST.
ENGLAND:
House of Commons.
THE NEW ZEALAND TROUBLES.
London, May 17.—The House of Commons to-night, Mr. Morrell said that the collection of Colonists from New Zealand, which waited on the Government here, refused their request that troops be retained in the colony but that they had agreed to borrow £15,000 annually for five years, to be used to promote immigration and improve local communications.

THE INDIAN COUNCIL.
A debate arose on the composition of the Indian Council, which occupied the remainder of the session.

House of Lords.
In the House of Lords, many petitions were read for the repeal of the law forbidding marriage with deceased wife's sister.
The Bill regarding the petition to pay the debts of their incumbents, provoked a sharp discussion, and was finally referred to a select committee.

RACING NEWS.
The Pall Mall Gazette, alluding to the forthcoming race, predicts that the Derby and Oaks will be equally interesting, but as many horses as usual will run at other races.

STATS CONCERN.
The State Court was given at Buckingham Palace to-night, the Queen being represented by Princess Alexandra.

AN OFFICIAL DENIAL.
The Prussian Government finds it necessary to repudiate the insinuation that it is in the process of purchasing part of the coast of the Italian Republic for a shipping station.

THE FENIANS.
London, May 17.—The police are searching Sirmingham for Fenians reported to be concealed there, and supposed to be connected with the party arrested on Sunday.

CHANCELLOR COMMUNICATION.
Mr. Shaw Lefevre stated in the House of Commons last night, that an inquiry was in progress into the scheme for the improvement of communication across the Channel.

CHESTER.
The Marylebone and Surrey Elevators concluded a strike of Chalk yesterday, which was won by the former Etern by 100 runs.

YACHT RACE.
London, May 18.—The third race of a series between the yacht Sappho and Cambria, was won by the Sappho.

COMMERCIAL.
London, May 18.—American securities business small; quotations quiet. United States 5.20% of '65 old, 85%; 10.40% '65; Stocks quiet.

LIVERPOOL. May 18.—California white wheat No. 84, red wheat No. 84 to 86, red wheat No. 114, best No. 10, 85 to 86, 86 to 88, 88 to 90, 90 to 92, 92 to 94, 94 to 96, 96 to 98, 98 to 100, 100 to 102, 102 to 104, every one is free to enter the reunions, voter or non-voter, to unload his heart. That dreaded functionary, the Commissary of Police, instead of taking notes, goes to sleep. The audience may sing the Marcellaise as their doxology.

"about France. The Republic! till they are hoarse
and the flag flies from the top of the Eiffel tower."
The Tribune at one of its meetings last night
said: "She was in an advanced state of pregnancy,
and the excitement brought on a premature
confinement next day. Lady orders ought to
take note of this possible contingency by remembering Madame Pire. It is customary to
elect as honorary presidents of these assemblies
some deceased celebrity. Baudin, in his tomb
since 1851, seems to be a favorite. Victor Noir
has recently died to be the recipient of
Jacobins' homage. But then on the foremost
head-roll of France there is Marat, Robespierre,
Danton and St. Just."

I have dwelt long on the political situation of
this country, for France is our nearest history.
A nation of forty millions, whose culture

fects Europe—the world—cannot be summarily overlooked in its throes at the re-birth of liberty—a nation that has made so many sacrifices for exact and equal justice, religious and political, but failed to preserve the benefits of them; is a profound problem to ponder over. In the revolution of 1799, liberty was strangled by its excesses. The First Napoleon gave birth to the glories of despotism—Charles the Tenth and Louis Philippe, by their feebleness, allowed liberty to escape their grasp; personal vanities and visionary schemes prevented the Republic from bringing it back. To give France every

The cold-blooded murders in Greece have evoked very indignant protests. Great Britain's ministers, and much sympathy for the slain. Were the massacred, French citizens, then Zouaves would by this time have secured their country and cleared it of brigands—no matter how few innocents were included. If not hand in to-day, they might be to-morrow. Besides in case of general killing, the French reconcile their consciences for any mistakes committed on the ground that God will always know his own. France has an interest in the affair, for

lately, in seeking redress for her murdered brother, secretary of Legation, becomes involved in a troublesome affair. France must see her through it, and Napoleon's difficulty is Bismarck's opportunity. In Paris "Greek" is synonymous for a black-leg, the French add to it now, that of a high-way man and cut-throat. The massacre will have the effect of cooling down sentiment about Greek nationality. How "ye that at Marthin and Leuctra bleed," must blush at your descendants! We "dash down the cup of Samian wine"—ply Byron, despite Mrs. Stowe—arise and begin to think Navarins a mistake.

Spain pretends to crown her edifice within months, but this sibilant utterance gives but little satisfaction. At present no one works studies in the Peninsula, except to get himself quartered on a public office, for which there is a run as intense as in Italy. Formerly the fashion was to become a monk, but the revolution has left such athletes without occupation. The Duke of Madrid seems to have no longer chance—his Carlist generals resign, and the clergy, with a Swiss fidelity, are leaving him to the Prince of Asturias. At Rome, His Holiness has received fresh adhesions to the doctrine of Infallibility, notably that of the Countess

Chambard, which will not improve his prospects to reign over France as Henry the Fifth. It is curious that all the dethroned have subscribed to the Pope's new Thirty-Nine articles—some like Don Carlos—in advance. It is well that the French Attorney, who has been restored to his throne as Aurelius I. of Aurasalus, succeeded before the new dogma became of such transcendent importance.

M. Maril, one of the members of the Provisional Government is dead. It was he who defended the present Emperor for the Bologna affair, but declined to be made a Senator when

fortune smiled on his client. Though different as wide as the poles to politics, he and Berry were for forty years most intimate friends—the occupied apartments in the same house—and that house Marill has died, as he wished. Dario 1848 he was Minister of Public Works, and was he, not Louis Blanc, that established the "National Workshops"—a scheme more chivalrous than sound, but which produced the Jan revolution. On quitting office on the eclipse of Prince Louis to the Presidency, he said, have now neither money nor client; as his Ministers served the Republic gratis. Hoïd said he confere—Astronomer Arago—I will divide my fortune with you, and bade him three or four

At last the Siamese twins, Rochefort and Raspail are separated. The former is for "abstention," in reference to the plebiscite—the latter for a full-mouthed "no." Raspail is successful apothecary, deals principally in camphor, has always been an energetic politician, and though now in the vale of years, is ready to take the Tuilleries, as he attempted formerly the Chamber of Deputies very naturally by "physical force and *plus ça change*." Rochefort is not in full prison. He comes daily with his children, and they made such a noise the other day that he warned them "we will not be a thousand francs each."

A very curious attempt of suicide took place a few weeks ago, in front of the Madeline. A young gentleman passing in a cab, put a pistol in his head and sent a ball through it. He was

During the review in the court of the Tulleries, the horse of General Frossard plunged and broke the arm of a Captain of the Tonnies. The wounded officer was carried into

the palace, and for an hour his name was the

The "social question" has in France, taken the place of the "rights of man." Two things have not changed since the creation of the world—death and misery, and to evade the latter, "artificial" means of prolonging human existence in the empire. Foundry men, sugar-bakers, tailors and washerwomen are on strike, and the consular officials have sent in their demand for an increase of half a franc per day for all salaries. It is this struggle between employer and employed, which constitutes the future black spot for the government.

At an election meeting held last evening, a resolution was passed, condemning the Emperor "to transportation for life"—a severe sentence could not be passed, as "the future Republic intended to abolish the penalty of death."

The cab men of Paris, when they wish to insult their horses, generally apply to them the name of some unpopular person or officeholder. In 1880, "Polignac" was the name of the noble animal—now it is the "Paw-brokers' gang" who does duty.

At a recent dancing party given by the Baronne d'Evreux—Miss Bidell—a new figure in a quadrille was introduced, called "the train-skiatist" who does duty.

BAT OF QUINTE CONFERENCE.—A report of the proceedings of the Bay of Quinte Conference of the Episcopal Methodist Church, now in session at Canby, has been received, and will appear to-morrow.

WELLSVILLE CONFERENCE.—The Wesleyan Methodist Conference of Canada meets in Toronto on the first Wednesday in June. During the session arrangements have been made to publish a Daily Review by the Church, which will be furnished to subscribers at 50 cts.

MORE EMIGRANTS.—Thirteen cars of emigrants passed west at 4 o'clock this morning. Amongst them were one hundred boys who have been educated for agricultural pursuits by Mrs. Gladstone, who remain in Ontario; 100 men, most of them with families also remain in Ontario. Five cars got off at Belleville. The remainder, 300 are Germans destined for the United States.

SIN JOHN A. MACDONALD.—The Ottawa Times of yesterday says: The Premier is still very weak, and his recovery is certainly not proceeding with that rapidity which we could wish, but he is no worse, and it is determined, we hear, to fit up a suite of rooms for him in the House of Commons, where he might be more easily moved than to his own home, and where Parliament meets in session.

There will be very little noise to disturb him, though telegrams say Sir John is still weak, though slowly improving.

WILLS' COMPILATION OF ACTS RESPECTING THE MUNICIPAL INSTITUTIONS OF ONTARIO. This work contains the Municipal Assessments and Taxes and also the latest amendments embodied in the text, so that a person reading the same will know what laws are at present. It also contains "The Act providing for the auditing of the accounts of Criminal Administration of Justice," "The Act for the payment of Justice for distressing jury panels," "The Act regulating the taxation of the Highway," "The Act respecting Line-fences and Water-courses," "The Act respecting Weights and Measures," "The Act to prevent the spreading of Canada Typhoid," and "The Act imposing a Tax on dogs and for the protection of Sheep." We notice the portion of the Law Reform Act abolishing Recorder's Courts has been introduced. This Act, we believe, was one of those disapproved by the Dominion Government, to which has been added a printed and valuable index. The work is complete, on good paper, neatly and strongly bound, and the compilation appears to be carefully and faithfully done, such as we would expect from Mr. Wills' long connection with Municipal affairs, and is a work as should be in the hands of every municipal councillor, officer or person wishing to know the latest Municipal Institutions. The Book is on sale at the Bookstore, Price \$1 each.

International Bridge.

A special telegram from Buffalo this morning informs us that a meeting of the stockholders of the American and Colonial International Bridge Companies was held at the Masonic Hall in this city yesterday afternoon, for the purpose of consolidating the stock of both Companies.

The meeting was harmonious, and the International Railway Bridge Company was fully organized by the election of C. J. Brydges, Esq., of Montreal, President, and the Hon. G. G. Spaulding, of Buffalo, Vice-President. The location of the Bridge was fixed as required by law.

The contract was concluded with C. S. Gzowski & Co. for the construction of the Bridge, the work to be completed by the end of 1891.

The Bridge will be connected with all Railways on both sides of the Niagara River, and will be a great benefit to the vast traffic between the United States and Canada, and will be a very remunerative undertaking.

The Canal Difficulty.

The 'Chicora' arrived at the Sault Ste. Marie, at half past ten on Tuesday evening. The troops were all well.

Col. Bolton went to the American side, saw General Cook, the American commander, and asked him as to the intentions of his Government with regard to the 'Chicora.'

The reply of Gen. Cook was—"My instructions are absolute. Nothing whatever connected with the Red River expedition can pass the Canal. I must, therefore, absolutely refuse to allow the 'Chicora' to pass through." No written instructions were produced by General Cook, nor was it thought necessary to demand their production.

The result was communicated to Capt. McLean who immediately left with the 'Chicora' for Collingwood, at which place she arrived last evening.

It had been determined to coal on the American side, but owing to the rumors that it would be refused, it was not attempted, there being sufficient coal on board, to reach Collingwood.

It was also apprehended that an attempt at the detention of the 'Chicora' might be made on some pretext or other. The American authorities have refused supplies of bread or aid in any way to the expedition.

A despatch was received from Washington last night, stating that President Grant had given permission to send supplies through the Sault Ste. Marie Canal, upon the assurance of Minister Thornton, that the expedition to the Red River was of a friendly character.

The American commander at the Sault will probably receive these instructions by the time the 'Chicora' goes up again, when no further stoppage will take place. It would be very desirable to know whether the Canadian Government asked permission to go through the Canal with the 'Chicora.' It has been surmised that this step has been taken, and in compliance therewith the American Government gave permission.

We trust our Government have done no such humiliating thing as this. Bad enough to be snubbed by having our merchant vessels turned back, and quietly submitting to it. But to get down on our knees and beg the American Government to give us our rights is going a little too far. What should have been done was to give orders for the 'Chicora' to go through as any other merchant vessel would go through the Canal, and the moment she was stopped, the Welland and St. Lawrence Canals should have been closed against U. S. vessels, and remained closed until ample reparation was made.

From Red River.

A despatch from St. Paul, May 8th, says: A. D. Nelson, Deputy Collector at Pembina, has arrived here. He left Pembina on the 7th on the "International," on which were several Canadians leaving the Red River country.

Two companies of United States Infantry were sent to the Sault Ste. Marie, where they would arrive about May 15th.

When the announcement of the arrest of Scott and Richot reached Fort Gary, there was much commotion in high places. Richot and O'Donoghue, and others were indignant, and denounced Canada soundly. Richot tied up the "International," but on receiving later news to the effect that Scott and Richot were released and would have an interview with the Governor, the steamer was released, and the excitement cooled down.

General Hancock has investigated the reports of Fenians concentrating at Duluth, and has decided to send a force of 100 men to the Sault Ste. Marie, to prevent the invasion of British soil. He will do all in his power to prevent a breach of peace by Fenians and other parties from this side.

At the Sault.

The Globe's correspondent at the Sault Ste. Marie, says the forwarding of supplies is now being carried on vigorously over the Portage since the arrival of the 'Chicora' with the horses.

Some stores are already on board the 'Algonia,' and she was expected to sail for Fort William to-day.

The same correspondent says it has been definitely decided to abandon the land route from the Lake of the Woods, and to follow instead the Winnipeg River, into the Winnipeg Lake, and then down the river to Fort Gary.

The reasons given for this change are as follows: To avoid the swamps, to be very deleterious to the health of the men, and would afford ample opportunity for skirmishing attacks on the troops, and to prevent as far as possible all chances of collision with Fenians, all throwing between them and the Canadian forces such a stretch of country that no disorganized force such as the Fenians, could possibly march over.

The present troops will encamp under canvas for a fortnight, or till the arrival of the contingents. There will be twelve men to each gun, and with only one gun, a small number to each boat—ten men, two voyagers, and the officer in charge; five boats to each company under command of a Captain.

Each boat will carry its own stores and tent and will proceed each day and encamp by night. This each boat will carry its own equipment and be complete in itself, at the same time being an integral part of five.

The Fenians.

A Boston paper asserts that sixty young men, known Fenians, left Worcester, Mass., for parts unknown last week. It also states that a large collection of Fenians, at the O'Connell movement was recently taken up in Marlborough.

A Cincinnati exchange says: Two prominent Fenians, who went to Philadelphia to arrange for a delegation of warriors to fight that city for Canada, reports that everything is lively, and the full quota desired will start immediately.

The Huntington Journal of last week has a report that "Four companies of Fenians in this city have been deprived of their arms, which have been secretly shipped away, while they are ordered to be ready to march in an hour's notice."

A New York despatch to the Boston Herald, says General O'Neill and his Chief of Staff Donnelly left New York on Sunday night for the West. They design to concentrate the Fenian forces designed for a grand raid on Red River. These forces will be mostly from points adjacent to the frontier, and the concentration will probably be made in Canada, the men proceeding thence singly. Possibly a faint may also be made on the eastern frontier.

The Queen's Birthday.

In accordance with a resolution of the Council, the Mayor has issued his proclamation, calling upon the people to observe Tuesday, the Queen's Birthday, as a public holiday. The request will be cheerfully complied with. All places of business will be closed, except the soda water saloons, and candy stores. The town will deck itself in holiday attire, the people will not on their best bid and tucker, the children will make as much din and noise as men and women of delicate nerves can well stand. The Volunteers will play soldier for an hour or two, and the Firemen will have a grand parade in the afternoon. The people from the country will come into town to see the sights, and the people of the town will go out into the country to witness the magnificent display which Nature in her most joyous and happy mood exhibits. There will be boat races, and fishing parties, and picnic parties, and any amount of fun and amusement. In the evening we are promised a torch-light procession by the firemen, and afterwards the grand display of fireworks from the Court House hill, that has taken place in this town for many years. And thus will we celebrate the anniversary of the birthday of our beloved Queen. God Save the Queen.

FROM MONTREAL.

By Special Telegraph.

MONTREAL, May 19.

A report circulated yesterday that Mr. Hugh Allan had purchased the 'Gazette' is to-day contradicted on authority of Mr. Allan himself.

More bank notes are being taken up to Ottawa for printing of more paper currency.

The 'Gazette' intimates that Mr. Kenney's acceptance of the position of Lieutenant-Governor of Nova Scotia, for a time is a step towards his permanent retirement from public life, and that he will be replaced in the Dominion Cabinet by Dr. Tupper.

A detachment of the H. Battery of Royal Artillery from Hochelaga, left this morning by steamer 'Corbiel' for Toronto on the Red River trip.

Two men and an officer, with 15 horses and two of Abyssinian stock guns.

Red River Expedition.

THE TRANSPORT COMPANY.

The special correspondent of the Bruce Herald, writing from Collingwood on the 10th inst., says:—The 'Wiley' has been for some time, on behalf of the Canadian Government, organizing the Transport Company, in purchasing horses and cattle, and eighty horses have been engaged at \$22 per month. The men are chosen principally from the rural districts. They are subject to military or martial law while they are attached to the expedition, and liable to be punished or discharged, as the commanding officer may see fit. This force is in command of T. Adair, of the 32nd Battalion, and Thomas Lloyd, of the Grey Battery of Artillery.

THE KIT.

The men have to purchase their own kit. This, as might be expected, caused some grumbling. However, General Lindsay, when they design to leave, promised to have the kit furnished at the very lowest figure. It consists of the following articles:—Two blankets, India-rubber sheet, water-proof bag, knife, fork, spoon, tin plate and cup, a coat of \$45. The steamer 'Frances Smith' and 'Chicora' were inspected by General Lindsay, to ascertain their fitness to carry the expedition to Fort William.

The 'Chicora' left on Saturday with 15 boats and a large quantity of stores for Mr. Dawson, who furnishes the pioneers of the expedition; about 50 men went with these boats and stores, and 712 left per 'Algonia' on Tuesday, the 3rd. THE SPANISH THRONE.

LONDON, May 19.—The news from Spain to-day is important, though conflicting. The dispatches received from the third district report that the Council of Ministers determined to confer with the Regent the royal throne, if no candidate for the throne is found within a reasonable time. On the other hand, some Continental news agencies have just forwarded telegrams to the effect that the Regency will submit the crown to the Cortes, in default of any other solution of the situation. It is believed in some quarters that the resolution to de-fer the crown is not absolutely final.

TEA AND SILK CROPS.

LONDON, May 19.—Despatches from Hong Kong, via Bombay, give flattering accounts of the prospects of the tea and silk crops, which are said to promise a large increase over the average yields.

MARRIAGE BILL DEFEATED IN THE LORDS.
LONDON, May 19.—The House of Lords to-night discussed the bill for legalizing marriage with a deceased wife's sister, which came up for a second reading.
Lord Houghton, opposing the abolition of restrictions, said that the bill was a violation of the sanctity of marriage, and that it was a step towards the destruction of the family.
The Duke of Marlborough opposed, and said that the bill was a violation of the sanctity of marriage, and that it was a step towards the destruction of the family.
The bill was defeated by a majority of 100 to 50.

DEBATE ON RED RIVER.

IN THE HOUSE OF COMMONS TO-NIGHT, Lord Milton moved an amendment to the bill for legalizing marriage with a deceased wife's sister, which came up for a second reading.
Mr. Stansfeld rose to reply to the question.
Lord Milton took offence and left the chamber.
The Duke of Marlborough opposed, and said that the bill was a violation of the sanctity of marriage, and that it was a step towards the destruction of the family.
The bill was defeated by a majority of 100 to 50.

HOUSE OF COMMONS.

DEBATE ON RED RIVER.

IN THE HOUSE OF COMMONS TO-NIGHT, Lord Milton moved an amendment to the bill for legalizing marriage with a deceased wife's sister, which came up for a second reading.
Mr. Stansfeld rose to reply to the question.
Lord Milton took offence and left the chamber.
The Duke of Marlborough opposed, and said that the bill was a violation of the sanctity of marriage, and that it was a step towards the destruction of the family.
The bill was defeated by a majority of 100 to 50.

ROWE'S

Piano and Furniture Polish.

THE Proprietor has much pleasure in

publishing the following certificate—

one of a great many—bearing testimony to

the great superiority of my Polish—

J. L. DAVIS, Esq.,

used ROWE'S CELEBRATED POLISH on my

Piano and Furniture, and must say it was

somewhat surprised at the beautiful effect it

had, and have therefore great pleasure in

stating that it is far superior to anything of

the kind I ever used.

Yours truly,

LIFE ASSURANCE COMPANY

ESTABLISHED 1847.

THE only Canadian Life Company author-
ized by Government for the Dominion.
Its rates are lower than those of British
or American Offices.

The fact that Canada has a larger amount
of Investments and of Assurance business
in the Dominion than any of the British or
American Companies, sufficiently attests the
preference of the public of Canada for a well
conducted Canadian Institution, and the pro-
gress of its principles and practice.

Agents throughout the Dominion, where
they are not established, can be obtained at the

Fenian struggles who bitterly implored mercy. One trooper a few days before seized a wretch by the collar and lifted him clean off the ground and dashed him senseless to the earth to the great amusement of his comrades. To the infinite disgust of the victim, who was pounced upon by an infantry man and conducted to the rear. When the main body of the Fenians crossed the line, Capt. Muir at once called off his men and took up a position to the right of the 60th. The Victorians were rushing up, but the enemy was out of sight and safely concealed on the bank. The greatest excitement prevailed and everybody was disgusted at the cowardly conduct of the foe.

The Fenians about 5 p. m., re-appeared near the huge rock on the American side opposite the Hill, but there was no great hammer for fighting and a few well-directed shots sent them to their cover. The dead and wounded Fenians to the number of twelve were then cared for by Col. Chamberlain. The British officers who were in the second attack stated that the Fenian force amounted to 375, commanded by 10 officers; that O'Neill was afraid to head the attack himself, giving an excuse that he was engaged on arranging "strategic movements."

Col. Chamberlain's force consisted of fifty men of his own battalion and forty-six civilians. Two more prizes cannot be awarded them.

Daily Intelligence.

BELLEVILLE, FRIDAY, MAY 27.

SIR JOHN A. MACDONALD—Telegrams from Ottawa to day say that Sir John A. Macdonald is slowly improving.

CURLING CLUB—A meeting of the Curling Club for the purpose of settling up the year's business, will be held this evening at eight o'clock, at Hambley's.

CELEBRATED PERFECTED SPECTACLES—One of the proprietors of the firm of Luxar, Morris & Co., will be at the store of young Agents, Messrs. A. J. McFee, on Monday, June 6th, 1870, to assist them in fitting difficult sights. Remember the date, June 6th.

THE BAND—Last evening the excellent band of the 15th Battalion, under the leadership of Prof. Armstrong, played for nearly two hours on the Court House lawn, to the evident delight of a great number of ladies and gentlemen who were assembled to listen to the sweet strains.

EMIGRANTS—Sixteen cars of emigrants passed up at 8.30 this morning, containing 800 Swedes for the Western States, and 377 English for Canada. A number of young lads went up by another train, six of whom got off here, and have gone to Madoc this afternoon in charge of a Schoolmaster who accompanied them from England.

DEATH DUTY—Death has been busy with the old residents of Madoc and several within the last few months have gone to their long home. On Tuesday, the remains of John Owen, Esq., one of the oldest residents of that town, were conveyed to the grave, and we regret to learn this morning that James Cavan, Esq. of Marysburg, is dangerously ill and cannot possibly recover.

MILITIA APPOINTMENTS—The Minister of Militia seems to have been singularly unfortunate in late appointments. In Quebec, a number of officers resigned on account of the appointment of a Deputy Adjutant General, in which all the Volunteer officers were overlooked. In the Cobourg district, a similar mistake has been made. The Star says "Sir George E. Cartier may not assure the matter will not be allowed to drop in the quiet manner which he evidently desires."

THE SILVER MOVEMENT IN KINGSTON—The merchants and traders of Kingston held a meeting on the 25th May, to consider the silver question, and after some talk decided to resolve and pay out the depreciated silver currency at the following rates of discount:—Half dollars, 46c or 34c; Quarter dollars, 25c or 18c; 25c British stamps, 12c or 7c; Dime, 9c or 5c; Half dime, 6c or 3c. It will not be long before the difficulties here before so seriously felt by all parties upon this question, will have passed away.

WHITNEY RACE—The race meeting at Whitney, which was so successfully inaugurated on the 24th, was continued, with but slightly diminished attendance, on the two following days. Wednesday's programme consisted of the Club purse of \$200 for first horse and \$50 for second, which "Sir Archibald" carried off; the Province purse, won by "Nettie," and a trotting race of \$100 for first and \$25 for second, mile heats, which "Whitpool" had no difficulty in securing. The sport on Thursday commenced with a hurdle race of two miles, in which "Dignity of hardies," which "Cateract" won after knocking down six of the hurdles. The Province Handicap was carried off by "Chas. Stewart," after a close and exciting struggle with "Nettie," who conceded 10 lbs. to the winner. For the trotting race of \$200, open

to all, mile heats, it is only "Johnnie Moore" and "Duchman" entered, the former winning, though heavy odds were laid against him. The Consolation race was won by "Henry Blue," beating two others. The Ontario Turf Club may fairly be congratulated on the success of their news.

Fenian News.

From the reports which will be found in other columns, it will be seen that there has serious work yet to do, the Fenians not having yet been driven out of the country. The movements going on in every part of the American Union, prove the thorough organization that exists, and the secrecy with which the schemes and plans of these cut-throat counsellors have been made. They also show that the Dominion Government had sufficient information to justify them in asking Parliament to pass a law suspending the Habeas Corpus Act, and that the Fenians were not justly chargeable with creating needless alarm.

Cable telegrams show that the English press is at last waking up to the true state of affairs in this country, and the Times notwithstanding its former temporizing policy, now shows that the troops be sent to Canada immediately, and that "Canada must have no tenderness for this second offence;" that "the marauders" must be treated as robbers, ruffians and "murderers." This is a sentiment which every Canadian will echo. Though the Times speaks out thus forcibly upon the one point, it is truly surprising that the English press should or will not understand the true feelings of the American people. To bespatter the President and his Cabinet with fulsome praise for issuing a proclamation warning men not to violate the neutrality laws, when they had allowed for years to organize, and publicly drill, for the avowed purpose of invading Her Majesty's Dominion, is a display of gross and unpardonable ignorance of passing events, or sarcasm of the broadest description. If the American Government were really so anxious to prevent it, until the Fenians had actually crossed the border, pillaged our people, and attempted to murder our citizens. It is quite time this mauling sentimentality on the part of the English ministry, press and people, towards the Americans was changed, and a more adopted more in accordance with the dignity and position of a free people; and, indeed, England is prepared to allow the great Republic to repeat itself after insult with respecting men. If so the support of the people of the Dominion know their true position the better.

The Fire in the Woods.

TERrible DESTRUCTION IN THE SAGUENAY VALLEY—OVER FOUR THOUSAND POUNDS OF HAY, AND SEVERAL POUNDS OF FLOUR—AND ANOTHER FIRE IN QUEBEC.

QUEBEC, May 26.
Another fire took place in St. Roch this forenoon, when a woman jumped out of a window and broke her leg in three places.

An immense fire took place some days ago at the Saguenay, covering over an area of 5 miles wide, by 20 in height. Over 500 families, numbering 4,555 persons, were rendered destitute. Six adults and two children perished. The wharf at Ha Bay and several churches have been burned. The fire originated in a woods, and was doubtless the cause of the dense atmosphere over head some days since.

The Latest from Halifax.

BATHING WAR SHIPS—THE VACANT JUDGESHIP.

HALIFAX, May 26.
Two more British war vessels, the *Royalist* and *Phaeton*, now at this port, have been ordered to the fishing grounds. It is stated that the Local Government has sent to Ottawa a recommendation of Attorney-General Wilkins for the vacant Judgeship.

Court of Chancery.

THURSDAY, 26th May.
The Court, the Hon. Vice-Chancellor presiding.

The number of cases set down for hearing was sixteen.
Besides the local Bar, there were present Mr. Edward Blake, Q. C., Mr. Thomas Moss and Mr. Thomas Hodgson, of Toronto.

Row vs. Ross—Action for redemption of a farm from mortgage, given to the late Mathias Ross. Dues for plaintiff. Reference to the master at Montreal. Cost of action to be paid by the defendant. *Dickson & Gilbert* for plaintiff; *L. Wallbridge, Q. C.* for defendant.

ANDREW vs. FARLEY—A suit for partition of the estate of the late James Farley, of Sidney, who died intestate. Dues for partition. Reference to the master at Montreal. Cost of action to be paid by the defendant. *Dickson & Gilbert* for plaintiff; *L. Wallbridge, Q. C.* for defendant.

WILSON vs. MONROVIE—Action by the intestate of James Wilson, of Tyndeville, against John Monro, of Drummondville, to redeem lot No. 9 in the 9th concession of Tyndeville. For the sum of \$75, which was defendant's assignment of his right to purchase the lot from the Crown. In the present action it is contended that the assignment was only intended as a security for the sum named. The Wilsons have held the land ever since. Dues for plaintiff. Defendant's claim, a mortgage, plaintiff's claim, a sale of the lot. Costs of the hearing to be paid by defendant.

Further costs reserved. *Alex. Robertson and E. Blake, Q. C.* for plaintiff; *Diamond and Dunsmuir* for defendant.

WILLIAM vs. WAGNER—Action for the partition of the estate of the deceased father of plaintiff and some of the defendants. One of the sons of Eyras Wagner sold the land in question to the defendant Rogers, and he insisted he had paid full value, and that an assignment had been made before the purchase by which Eyras should have the land as his share of the estate. Defendant failing to establish the fact, he was ordered to pay the costs of the suit up to hearing. Dues for partition. *A. H. Duggan and Thomas Hodgson* for plaintiff; *L. Wallbridge, Q. C.* for defendant.

HALL vs. LANTIER—The late John Becker had sold some land near the Jail Station to defendant, on which he built a house, and subsequently gave a mortgage to the plaintiff, but it afterwards appeared that the description of the land in the deed and mortgage was incorrect. Plaintiff then paid up the balance due Becker on the original purchase, and filed his bill to rectify the mortgage and to foreclose, on claiming that he should be repaid the amount he had already paid. Defendant submitted to this contention, but retained the proceeds of costs. Dues for plaintiff. Reference to master. *Dickson & Gilbert* for plaintiff; *A. H. Duggan and Thomas Hodgson* for defendant.

THE FENIAN RAID.

MOVEMENTS IN CANADA.

The 14th Battalion at Kingston have been called into active service. The Royal Canadian Rifles being expected to leave for Prescott or some other point. The 14th was ordered to do garrison duty.

The 47th Battalion were ordered out, and arrived in Kingston yesterday. They are billeted at the hotels and private houses.

The steamer "Magnet," on her way to Montreal on the 26th, took on board at Prescott, 300 men, two pieces of artillery, and a number of horses for Cornwall. The Royal Mail steamer "Spartan" shipped off the 27th, from the Kingston Military Department, 300 tons of rifles, ammunition, etc., for Montreal. They were being sent by the St. Lawrence River, carried by a squad of the 14th P. W. O. Rifles.

THE FIRST BATTLE.

The Fenian loss in the first battle was six killed and about twice that number wounded and four prisoners. The prisoners were taken to Montreal. Not a single Canadian was hurt in the fight. The Canadian volunteers behaved nobly throughout. An account of the battle will be found on the first page and a more detailed account will be published to-morrow.

O'NEILL DENOUNCED.

The Fenians denounced Gen. O'Neill in very vigorous language, stating that his arrest by the U. S. Marshall was a preconcerted affair.

CAPTURE OF FIELD PIECES.

Col. Miller has three of the captured field pieces; one of the latter is a steel five pounder and breech loader.

S. S. TROOPS AT THE FRONT.

Col. Sherman with 500 regular American troops arrived at Ogdensburg last night. Three companies of U. S. troops were at Poughkeepsie last night. More troops have left Boston and other places for the scene of the trouble.

FROM CORNWALL.

Cornwall was in a state of great excitement yesterday. A force of 500 Fenians were encamped within six miles of Cornwall. The 59th Battalion was immediately put under arms, and a patrol troop ordered to patrol the Canal. Reinforcements arrived from Ottawa consisting of the Garrison Artillery and four companies. They landed at 21.2 p. m. from the Magnet, and were received by the Band of the 90th and the Cavalry now numbering sixty horses. Last evening a corps arrived from Brockville under Col. Crawford. The Irregular Artillery, under Captain McDonald have also arrived.

SUSPICIOUS STRANGERS.

Guards have been placed in all the banks and public buildings in Ottawa, there being a number of suspicious strangers in the city.

12 MEN RECORDED SHOT.

Twelve men were shot last night near Poughkeepsie by the Fenian bushwhackers.

TRAINS CANCELLED.

All trains leaving Montreal on the Grand Trunk Railway, are cancelled. They being going Westward will have to wait for loss to-morrow.

THE SAULT STE MARIE.

The United States authorities have notified our Government that they will use all their efforts to prevent any Fenian force or our transports through the Sault Ste. Marie.

DEMAND OF THE BRITISH GOVERNMENT.

OTTAWA, May 26, 10 a. m.—It is rumored here that the Government has received notification from the British Government that Minister Thornton has been directed by the Secretary of Foreign Affairs, to demand the protection of the Canadian frontier, by President Grant.

REINFORCEMENTS.

Telegrams from various points say the Fenians will be reinforced by large numbers.

THE NIAGARA FRONTIER THREAT.

ST. CATHARINES, May 26.—The artillery here last night amid great enthusiasm. Two officers of the garrison "Michigan" came down from Fort Colborne to-day, and they say that they are confident that the Fenian frontier will be invaded. Col. Durie and

Villiers are here, and the men are spilling for a fight.

ST. CATHARINES, May 26.—The artillery here last night amid great enthusiasm. The troops were loudly cheered by the people. The remainder of the 19th Alabama are under arms, and expect to be forwarded early in the morning.

FROM CHICAGO.

CHICAGO, May 26.—A large Fenian meeting is to progress here. Two thousand people present. George Francis Train is speaking and urging the Fenians on to assist the raiders. He denounces President Grant, and says that Gen. O'Neill's St. Albans movements is a blind to cover real attacks at Huntington and Red River. Admission to the meeting fifty cents. The Irishmen are hopeful, and do not believe that General O'Neill is restrained by the Government. Men are eager to go to the front, and leave by every train. Large sums of money were raised at the meeting. The Chicago Fenians have all been sent to Malone.

WHAT THE FEELING IS.

The following is an extract of a letter from an old INTELLIGENCER, at present residing in Auburn, N. Y., dated 23rd inst.:—"Will you please send me the *Daily Intelligence*, instead of the weekly? I have an interest to know what is going on in Canada in regard to repelling the Fenian invasion. There is considerable stir in Fenian circles here, and this the last two days as many as 150 have left Auburn, destination unknown, but there is a great deal of excitement here at the present time, and the entire American press is urging them on with the sentiments of 'God speed and a happy return.'"

THE RAID.

Morning Despatches.
1,500 Fenians Marching on Canada.

THE VOLUNTEERS GO TO MEET THEM.
FENIANS STILL IN FORCE AT PIGEON HILL.

Yankee Sympathy for the Raiders.

MONTEAL, May 27th, 9 a. m.
Gen. Gleason, the Fenian General, reports from Trout River that he has 1,500 men, and is receiving reinforcements, and that he is marching into Canada.

Our troops left Huntington at daybreak to meet and attack him.

Our office at South Hinchinbrook was taken possession of and sacked yesterday. All the Volunteers are again ordered to the front.

At Pigeon Hill the Fenians are said to be well in force.

There are small squads of Fenians encamped near Island Pond.

The Volunteers in every quarter are telegraphing that they are ready, and asking for immediate orders to join.

FENIAN MOVEMENTS IN CINCINNATI.

CINCINNATI, May 27.
One or two secret meetings of persons friendly to the present Fenian movement, was held last night, and it is understood a public meeting will be held to-night if the news is favorable from Canada to-day.

Noon Despatches.

General Gleason at the head of 2,000 men.
GEN. SPEAR TO TAKE COMMAND.

GLEASON CROSSED INTO CANADA.

NEW YORK, May 27th.
A special says that when Gen. Gleason crossed into Canada, near Malone yesterday, he had with him 2,000 men, and that he had since been largely reinforced. He now occupies a position four miles beyond the line; he is instructed strongly, and confident of holding his position.

News has just been received, that after the arrest of Gen. O'Neill, and his incarceration in Burlington prison, Gen. Samuel P. Spear was appointed commander-in-chief, and proceeded at once to issue his orders in face of United States Marshal Foster.

Gen. Spear will either cross the Canadian border at some point not heretofore attempted, or re-embark from Malone yesterday, and cross the Canadian frontier at some point in the enemy's country. This statement is by authority.

The private press express great dissatisfaction with Gen. O'Neill; some say that he is too young to plan and too inexperienced to execute that is both practically and theoretically incompetent.

A despatch from Gen. Gleason, dated at Trout River last evening, says that he would fight before day light.

A special to the World from Malone, N. Y., says that an engagement will doubtless take place soon.

The Fenians Routed.

MONTEAL, May 27th, 12 o'clock.
The Fenians near Trout River fled the first shot. The engagement has commenced, and the Fenians are being rapidly driven across the line, leaving their knapsacks scattered over the field. No casualties reported.

Afternoon Despatches. From St. Albans.

DENOUNCING O'NEILL.

FENIANS IN FORCE.

AN ATTACK EXPECTED.

VICTORIES GOT THE MARCH.

FREELIBER, Friday 1 a. m.
From all I could learn, the Brotherhood at St. Albans were highly incensed against O'Neill whom they accuse of having previous to the battle on the lines arranged for his own arrest.

Persons who came from St. Albans last evening report the Fenians in force there, but disorganized. Last evening the field pieces of the Fenians captured on the 25th, was brought here in charge of a party of the home guards, the gun carriage and carriage box are painted green and the cannon itself is well mounted and looks a serviceable piece of frontier service.

If the Volunteers had had such a field piece on the 25th, the Fenians could never have held their position among the woods for six hours as they did against the rifle bullets.

S. A. M.—Hurt and McCalli, the Fenian promoters, are all to be sent to Sweetwater 12 miles distant. Both are hard looking rascals.

The Victorians after their victory, and a good night's rest looked well this morning; splendid weather.

S. A. M.—On my way to the front I met Capt. Muir with a squad of his troops near Cook's cabin returning to head quarters to pacify the country.

Capt. Muir reports that 300 Fenians under a General left St. Albans last night, and struck Col. Smith's position at day light.

To-day the Victorians at St. Albans, got the route at 2.40, and were on the march ten minutes afterwards. Nothing was heard of the Fenians when Capt. Muir left last night. The Cookshire troops of Cavalry are expected here hourly.

THE FIGHT THIS MORNING.

A Bull Run Skedaddle.

THE FORCES ENGAGED.

One Killed—Several Wounded.
U. S. FORCES COMING.

HINCHEBROOK, May 27.

This morning at 5 o'clock the troops at Huntington, made an advance. The force was composed of the 60th regiment, the Garrison Artillery and Engineers of Montreal, and the Huntington Battalion. No correspondent arrived at Trout River lines an hour in advance of them, and saw the Fenians forming a breast work with rails leaning across the field on the bank of the Trout River and half a mile from our side.

At half past eight our troops came up, when Col. Bagot ordered the Huntington Volunteers under Col. McEachern, to deploy across the field. The 60th were also ordered to advance along the road, and the artillery to cross the river and go up the South bank. These manoeuvres were performed at once, and the whole line opened fire. The Fenians did not immediately fire twenty shots, such a skedaddle was never seen since Bull Run. Our men followed, firing as they went, until they reached the boundary line, when they stopped.

The Fenian officers tried to form their men on crossing the line, using their swords and revolvers, but all in vain; on they rushed to their old camping ground.

Some of our men were hurt, and it is supposed the Fenians lost a few wounded. One is killed, and we have one prisoner.

The United States troops are advancing from Malone, and will take them prisoners ere night. The Fenian number 400. Our troops still remain at the boundary line.

FENIANS DEMORALIZED.

ST. ALBANS, May 27.
The only Fenians that left for their homes last evening, were the Burlington boys, the rest remained and were provided with food by order of U. S. Marshal Foster and the village authorities. Some found shelter in the depot and within the houses, but many were compelled to remain outdoors. The men and officers seem to be without money. Some say O'Neill has one or two thousand dollars of Fenian funds with him, but this is doubted.

Gen. Spear, Gleason and Prim, who arrived this morning, have with others of the Brotherhood, been in close consultation. Gen. Spear has just ordered the men to go into campment 2 or 3 miles from here.

ST. ALBANS, May 27.
Gen. Spear wants men to retreat to the Canadian line to drive the Canadian troops from Huntington.

United States Marshal Reed received a telegram last night that the Government will not permit the transportation of Fenians from home, but that the expense must be borne by the State Government.

Col. Mosby is reported to have left for the border at an early hour this morning with 50 picked men.

Gen. Donnelly cannot recover, and is failing fast.

After the engagement at Richards farm the Canadian troops came this side of the line and seized a piece of artillery and a large quantity of arms and ammunition that had been abandoned.

Gen. Foster has, or will make a formal demand for the return.

ENGLISH OPINION RESPECTING THE FENIAN RAID.

London, May 27.—The Times again expresses its admiration for the loyalty and vigor displayed by President Grant. It is unable, however, to express its indignation at the object for which American and Canadian troops have been put in motion. It applies to the affair such words as "abominable pillage," "slaughter," "outrages," "murders," &c.

The News refers to the vigilance of the Canadian Government, the firm attitude taken by the United States, and the absolute inability of the Fenians.

STILL LATER.

LONDON, May 28.—The French cable broke on the 26th inst.

The "Post" admits that the Washington Government has done all that can be reasonably required to suppress the Fenian raid.

The "Saturday Review" accuses the Fenian authorities in some quarters, that the Washington authorities are in compliance with the Fenian raid.

The "Times" thinks that the Fenian attempt will not be absolutely regretted, if it will only prompt the United States to such action as shall prevent a repetition of such outrages.

CANADA
LIFE ASSURANCE COMPANY
ESTABLISHED 1847.

THE only Canadian Life Company author-
ized by Government to do business in the
Dominion is lower than those of British
or American Offices.
The fact that Canada has a larger amount
of Investments and of Assurance business
in the Dominion than any of the British or
American Companies, sufficiently attests the
preference of the public of Canada for a well
conducted Canadian Institution, and its rapid
progress is satisfactory evidence of the popu-
larity of its principles and aims.
Agencies throughout the Dominion, where
every information can be obtained, or at the
Head Office in London, or at the
Head Office in Montreal.
